CEO

Message

It is with great pleasure to take this opportunity to address you as Chief Executive of Robia Engineering Services to share the company vision. Established with a cherished goal of contributing towards the providing better services to the industries as well as the growth and well-being of its Employees.

We have sincere and experienced management team which is benefitted with the trust and support of our customers and booming opportunities of contracting business. Robia Engineering Services is committed to the highest levels of professionalism, ethics and integrity. We have integrated responsible environmental practices and measures into our operations in order to achieve that goal. The availability of highly skilled workforce as well as use of state of the art project management systems for planning and execution empower our teams to deliver successful projects time after time. Recognizing the responsibility bestowed on me as the Chief Executive Officer, I am constantly evaluating operational efficiencies in order to ensure best value for money for our customers on one hand while constantly enhancing company value on the other.

Muhammad Usman Javed
Chief Executive Officer

Company

Introduction

Robia Engineering Services (Pvt.) Ltd is an organization with dedicated management team possessing years of experience in delivering projects, contracting, industrial construction and trainings. Offers "one-stop" services by providing diversified construction, maintenance and turnkey contracting solutions.

Our management strength stems from years of experience amongst the senior management in implementation of diversified projects for the known industrial leaders. Coming from a rich heritage in building an institution from its very humble beginning to maturity, while continuing with focus on health and safety of and around our surroundings.

Robia Engineering Services has the success due to its experienced staff; from the beginning Robia Engineering Services realized the importance of staff satisfaction. Robia Engineering Services not only brings the best talents in its operations but also able to provide, respect and rewards its employees to reduce staff turnover. This has meant that the experience level of our manpower has risen that enables Robia Engineering Services to open the more doors for employment.

Robia Engineering Services offers its services in Civil, Mechanical, Electrical, Human Resource, Instrumentation and Telecommunication fields of projects and construction management. This all enable company to deliver complete turnkey EPC solutions to its clients.

“To be the one of the leading company in the domains of Project construction, plant services, and HSE Training services while maintaining professional attitude”

Our mission is to build and maintain industrial plants, infrastructures, and commercial facilities that help propel economic growth and the development of human potentials in the country.
